

Frequently asked questions

Q: Do you rent out machines ?

A: Unfortunately we don't do any rentals. Our machines are for sale at the prices listed on the website.

Q: Is it possible to add other games to the current game list setups ?

A: Unfortunately not , the games are pre-set on the jamma game boards in the factory and it is therefore not possible to add other games to these game setups.

Q: Can games from the "412-in-1" setup be added to the "619-in-1" setup and vice versa ?

A: No, the "412-in-1" game setup contains games that is programmed for a vertical screen orientation and the "619-in-1" game setup is programmed for a horizontal screen orientation, making them unable to run on the same machine.

Q: Is there a warranty on the machines ?

A: All new machines carry a three month warranty. This warranty does not include shipping costs. Should anything go wrong with the machine after the warranty has expired, we are still just a phone call away and will always be more than happy to help solve any problems customers may experience.

Q: Are your machines computer based ?

A: No. Our machines run Jamma based solid state game boards

Q: Are your machines coin operated ?

A: Machines can be set up for coin operation or free-play modes

Coin operated units cost R500 more than free play units.

Q: Do you deliver if I do not live in Cape Town and do the prices include delivery ?

A: Prices do not include delivery unless stated otherwise. Delivery can be arranged nationwide through Time Freight couriers and a quotation for the transport cost to your specific location will be provided on request.

Q: Do you have a showroom ?

A: We do not have a showroom as such as we are an internet based company, but demo machine viewings can be arranged at our office in Milnerton, Cape Town.
